Global Watch Weekly Report

Welcome to the Global Watch Weekly Report

In this edition of the Global Watch Weekly we will have some fun in looking at examples within the media and video gaming industry where the term “new world order” has been used. The term “new world order” was initially popularized by George Bush Snr in 1991.

Prior to the early 1990s, New World Order conspiracism was limited to two American countercultures, primarily the militantly anti-government right, and secondarily fundamentalist Christians concerned with end-time emergence of the Antichrist.

New World Order sceptics, such as Michael Barkun and Chip Berlet, have observed that right-wing populist conspiracy theories about a New World Order have now not only been embraced by many seekers of stigmatized knowledge but have seeped into popular culture, thereby inaugurating an unrivalled period of people actively preparing for apocalyptic millenarian scenarios in the United States of the late 20th and early 21st centuries.

These political scientists are concerned that this mass hysteria could have what they judge to be devastating effects on American political life, ranging from widespread political alienation to escalating lone-wolf terrorism.

However it doesn't matter what these sceptics say because the Bible makes it very clear about the series of events which will transpire before the second coming of Christ and so we are told throughout the new testament to watch and take note of the signs of the end of the age regardless of whether the secular world demonizes those who take this command very seriously.

Sit back and enjoy.

NEW WORLD ORDER AWAKENING

NEW WORLD ORDER MOVIE QUOTES

The new world order has been openly spoken about by politicians, globalists and business leaders for more than 20 years. Barack Obama, Tony Blair, George Soros and George Bush Senior have all spoken on record that a new world order is coming.

What's not well-known about the term new world order is that it has been used in Movies, TV Shows and in Video Games over the last 70 years to significant effect.

In a previous edition of the Global Watch Weekly we had made mention about the card game called "Illuminati" and its significance but in this edition we explore some examples within the entertainment industry where the term "new world order" has been used.

DER FUEHRER'S FACE (1942 SHORT FILM)

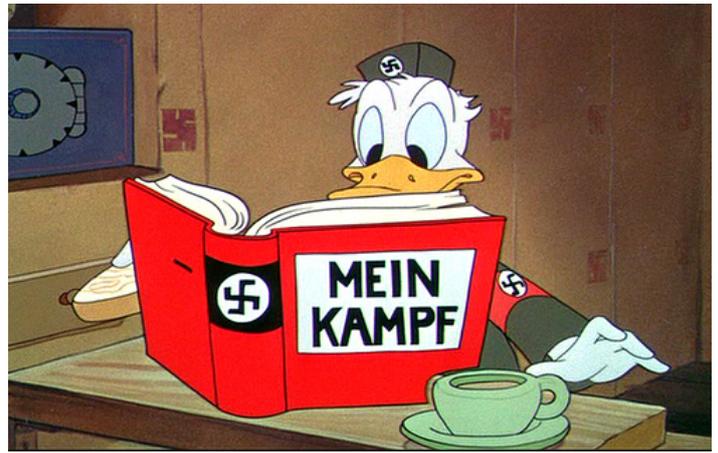

We bring the world's new order. Heil Hitler's New World Order. Everyone of foreign race Will love der Fuehrer's face When we bring to the world dis-order

Of the 15 new world order quotes, this one referenced from the movie *Der Fuehrer's Face* is definitely the most unusual.

Not only is it unusual because the term is used in a film made for children, it's also unusual because the phrase "new world order" wasn't adopted by film makers and popularised until the 1990's.

The short film, a Walt Disney production that is based on Donald Duck having a nightmare that he is living in Germany slaving under the Nazi regime, could have been the reference George

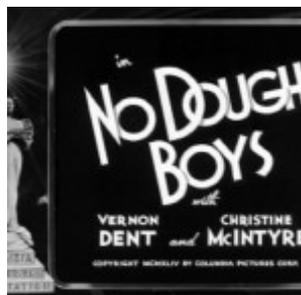

Bush Senior copied for his state of the union speech where he was quoted as saying:

Out of these troubled times, our objective—a new world order—can emerge. Today, that new world is struggling to be born, a world quite different from the one we have known.

DOUGH BOYS (1944 SHORT FILM)

So, you're Naki, Saki, and Waki, eh? You're all wacky! Grab them in ze name of ze New World Order! So you Ratzis want the world! Well TAKE it!

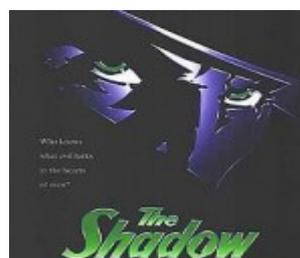

A classic short film from the three stooges where they are mistaken for Japanese soldiers. All attention in the 1940's was focused on world war two, so paranoia about the emerging

German and Japanese empires was reflected in this film.

THE SHADOW (1994)

There's a new world order coming, Shadow, and I'm going to be a king! A KING!

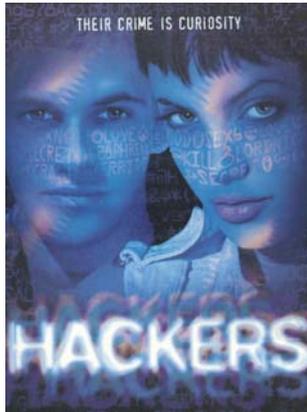

This movie was set in the 1930's in New York City and portrays the battles of good and evil against an arch nemesis who is building an atomic bomb.

NEW WORLD ORDER AWAKENING

HACKERS (1995)

You wanted to know who I am, Zero Cool? Well, let me explain the New World Order. Governments and corporations need people like you and me. We are Samurai... the Keyboard Cowboys... and all those other people who have no idea what's going on are the cattle... Moooo.

This movie perfectly reflects the past situation of the CopBlock founder who at one point was facing 21 years jail on "wiretapping" charges for filming police.

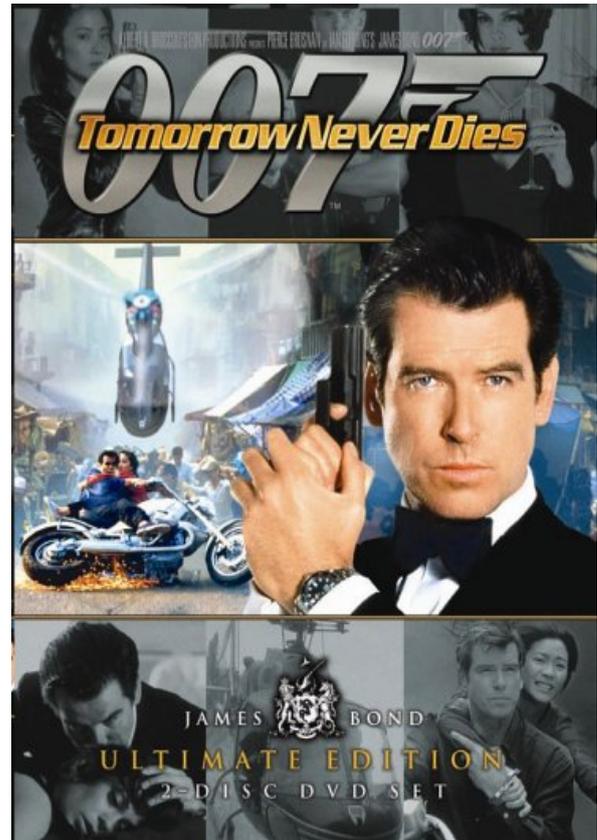

The movie is based around a young boy who is arrested by the US Secret Service for writing a computer virus. Years later, he and his friends discover a plot to unleash a dangerous computer virus, but they must use their computer skills to find the evidence while being pursued by the Secret Service and the evil computer genius behind the virus.

TOMORROW NEVER DIES (1997)

What you are about to witness, Ms. Lin, is not so much a missile attack, but the launch of a new world order. In precisely five minutes after your countrymen have attacked the British fleet, I shall retaliate for dear old England by sending this missile into Beijing, where General Chang has just called an emergency meeting of the Chinese High Command.

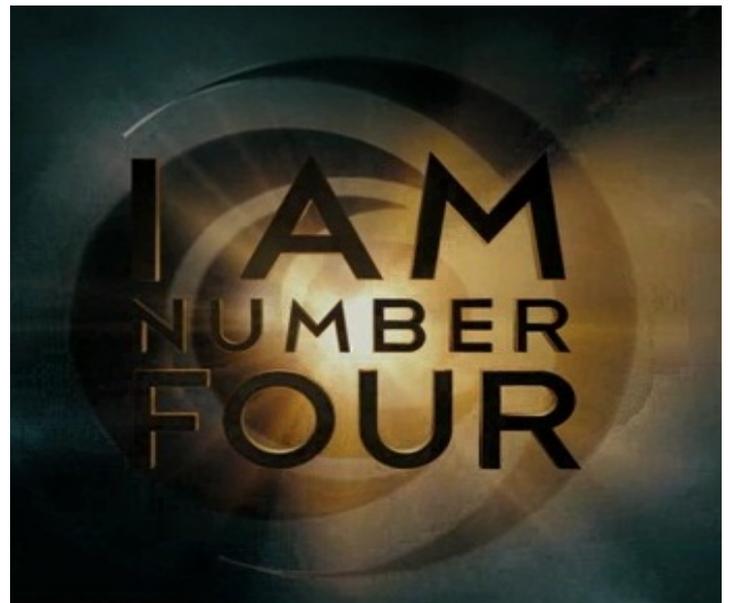

Tomorrow Never Dies is a James Bond movie that revolves around James Bond trying to stop a media mogul's plan to induce war between China and the UK in order to obtain exclusive global media coverage.

Many argue that for the new world order to become a reality, the world's mainstream media first needs to be centralized, making a global media outlet that would be a perfect propaganda tool for the implementation of world government.

I AM NUMBER FOUR (2011)

OK so i called you like you said. I mean it's not my fault they got. I mean we held up our end. We're still in? The whole new world order thing? Santa Fe, New Mexico. I know the drill, okay?

I am number four is a movie about Aliens and their Guardians who are hiding on Earth from intergalactic bounty hunters.

NEW WORLD ORDER AWAKENING

Maybe the bounty hunters are meant to be the Globalists and the aliens are meant to represent mankind? Just a thought!

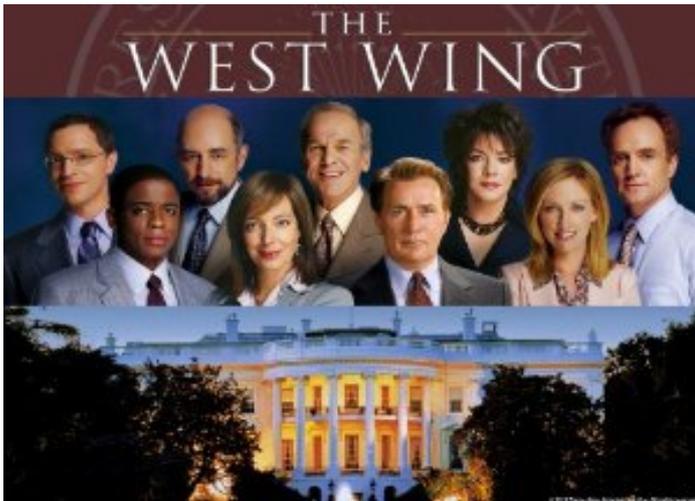

STARGATE SG-1 - EPISODE: POINT OF NO RETURN (2000)

The New World Order? Black helicopters, underground basses? Don't you guys read the papers?

Stargate SG-1 was a military science fiction television series. Its not clear how the script writers slipped the term new world order into this series. Could this be a sign of the next space race between China and Russia?

THE WEST WING - EPISODE: THE STORMY PRESENT (2004)

You start saddling up camels in every country in the Middle East then you better be prepared to spend the next 50 years sifting through sand because this isn't a quick run on the beach, Jed. This is the new world order.

The West Wing was a TV series about the lives of staffers in the west wing of the White House. What a perfect setting to use the term 'new world order'. The Globalists at their best!

MONARCH OF THE GLEN - EPISODE #1.2 (2000)

I had hoped the new world order would allow a chap to open his own correspondence.

Monarch of the Glen is loosely based on Sir Compton Mackenzie's Highland Novels, which are set in the same location but in the 1930s and 1940s. I wonder if the term new world order was used in the original Highland Novel? If it was, then that would be just creepy considering that they were written between 1941 and 1947.

GRIM & EVIL

Mandy! I'm getting presents in the New World Order! Mrs. Claus said so! It's you and me against the world.

The Grim & Evil Show was an American animated television series created by Maxwell Atoms. The series, which debuted on Cartoon Network, consisted of two segments which were eventually spun off into their own series.

WCW BASH AT THE BEACH (1996 TV MOVIE)

Well the first thing you've gotta realize brother is that this right here is the future of wrestling. You can call this the New World Order of wrestling brother.

The Outsiders, Kevin Nash & Scott Hall, have invaded WCW (world championship wrestling)! They have promised a third member to their team to challenge the best WCW has to offer.

The term new world order was frequently used in WCW and WWF wrestling. However, why they chose that term new world order to describe a change of guard is not clear.

COMMAND & CONQUER: RED ALERT 3 (2008 VIDEO GAME)

Come, comrade-general. A new world order awaits. Yes. My father follows the ways of our ancestors and there is much wisdom in what he says

Like the previous entries in the Red Alert series, the game is set in an alternate reality from World War II, in which the Western Allies fought the Soviet Union.

SYSTEM SHOCK 2 (1999 VIDEO GAME)

The process shall not take long. If it sounds unpleasant to you, put your mind at ease, insect. You will not survive to see my new world order. Don't you like my new look?

System Shock 2 is a 1999 first-person action role-playing video game, designed by Ken Levine for Microsoft Windows. The title is a sequel to the 1994 PC game *System Shock*, and was co-developed by Irrational Games and Looking Glass Studios.

SUPER MARIO 64

One of the greatest games ever to grace the video game industry is *Super Mario*. In version 64 of this game Mario has to land on four towers to cause the pyramid to open up.

The pyramid then opens allowing Mario to fight the pyramid boss. Immediately after opening the pyramid, Mario gets to fight the owner of the pyramid who shows the hand and the eye.

GRAND THEFT AUTO

A logo used in the game "Grand Theft Auto" is the one as below. Here we see the pyramid and the "all seeing eye". Notice the world "Self" - it is people pre-occupied with the self. Notice how the world "Self" is located where the pyramid sections off.

THE CONDUIT

Another example has emerged of video games with embedded references to New World Order or Illuminati symbolism. 'The Conduit,' a "first-person shooter" for the Wii console, apparently includes a hidden message written on a wall somewhere within the game that reads, "Fight and Die for the NWO."

The game, whose scenario involves a secret service investigation of alien attacks, also features a "special weapon" known as the All-Seeing Eye (or A.S.E.) along with other

references, such as Prometheus, a mythical figure whose quest for godhood has special meaning for the illuminus and is also a "mysterious" character in the game.

USA Today's review lays out the game's scenario in detail:

"The Conduit follows secret service agent Mr. Ford as he investigates a series of attacks in Washington, D.C. by aliens called The Drudge. After his government employer, The Trust, betrays him during a downtown battle, Mr. Ford gets help from the mysterious Prometheus. Both characters work together to uncover The Trust's connection to these attacks.

Besides an impressive arsenal... Dr. Ford has access to the All-Seeing Eye, or A.S.E. Players will use this to uncover cloaked enemies and mines or hack into computers. Hidden puzzles found with the A.S.E. reward players with special, souped-up weapons, but it's surprising more weren't use as a method for advancing through the game."

There are many, numerous examples of video games bearing such messages, including the aptly-titled, 'New World Order,' also a first-person shooter released in 2002.

Just a few other examples include:

The video game 'BlackSite: Area 51' features a scenario where 'the government is desperate, struggling to contain secrets so terrible they can no longer be kept' and must rely upon a special-forces hero.

The video 'Black' includes a CIA black ops character on a secret killing mission in Russia. Throughout the game, one can stumble across a destroyed safe at which point the screen reads "Destroyed video footage labeled Bohemian Grove"

'Crackdown,' a violent video game about provoked-anarchy and gang warfare, reportedly ends with the gangster realizing his success by becoming "a New World Order agent."
